Eight Android settings to change before you use it for work

Published 11 November 2026. Read the full story, sources and any updates at digitaladvisors.com.au/journal/android-work-phone-settings-to-change/

- [ ] **Set a six-digit PIN or a password.** Go to **Settings > Security > Screen lock**.
- [ ] **Turn on Find Hub.** Check **Allow device to be located** is on in **Settings > Security > Find Hub**. If the phone goes missing, go to **android.com/find**.
- [ ] **Turn on 2-Step Verification.** Go to **myaccount.google.com > Security & sign-in > How you sign in to Google > Turn on 2-Step Verification**, then save your backup codes somewhere safe.
- [ ] **Check for updates.** Go to **Settings > System > Software updates** on Wi-Fi, with the battery charged to at least 75%.
- [ ] **Confirm Play Protect is scanning.** In the Play Store, tap your profile icon, then **Play Protect > Settings**, and check **Scan apps with Play Protect** is on.
- [ ] **Review location access.** Go to **Settings > Security & Privacy > Privacy > Permission manager > Location** and switch apps that don't need it in the background to **Allow only while using the app** or **Ask every time**.
- [ ] **Hide sensitive content on the lock screen.** Go to **Settings > Notifications > Notifications on lock screen** and turn off **Show sensitive content**.
- [ ] **Turn on Theft Detection Lock.** Go to **Settings > Google > All services > Personal & device safety > Theft protection** and switch on **Theft Detection Lock**.
