Claude Fable 5.2 is here: what Pro users get this week

Published 10 November 2026. Read the full story, sources and any updates at
digitaladvisors.com.au/journal/claude-fable-mythos-5-2/

- [ ] **Pick one hard task for the free week.** Pro and standard Team users get Fable for a week, up to half their weekly limit. Save it for work your usual model struggles with.
- [ ] **Keep Opus 5.5 as your everyday model.** Anthropic recommends starting there for most coding and knowledge tasks, and moving up to Fable only when needed.
- [ ] **Update the model name in your API code.** Developers can switch to claude-fable-5-2 to get the new model and the lower US$8 and US$40 per million token prices.
- [ ] **Don't plan security testing around Fable.** Its safeguards block most cybersecurity tasks; security teams need Mythos 5.2 through the Cyber Verification Program, or Claude Security on Enterprise.

NOTES
