Pixel 10 owners get Gemini's DIY widgets, but not its booking agent

Published 11 November 2026. Read the full story, sources and any updates at
digitaladvisors.com.au/journal/gemini-intelligence-pixel-10-australia/

- [ ] **Install the November Pixel Drop.** Go to **Settings > System > Software updates** on your Pixel 10 and check for the update. Google is rolling features out over several weeks.
- [ ] **Try Create My Widget.** Touch and hold an empty space on the home screen, tap **Widgets**, then **Create**, and describe the widget you want.
- [ ] **Check what each widget shows.** Compare a new widget's answers with your actual email or calendar before you rely on it.
- [ ] **Decide what Gemini can read.** Only connect your Google apps when you set up a widget if you're happy for it to draw on your Gmail and Calendar.
