Website accessibility: what the Disability Discrimination Act means for your site

Published 27 September 2026. Read the full story, sources and any updates at digitaladvisors.com.au/journal/website-accessibility-dda-small-business/

-
- ☐ **Run the W3C Easy Checks on your home page and main enquiry page.** Note each failure, including image text alternatives, colour contrast and form labels.
 - ☐ **Tab through your booking or quote form using only the keyboard.** Check you can see every field and button as it's highlighted, and that a sticky header or cookie banner doesn't hide it.
 - ☐ **Check button and link sizes on your phone.** WCAG 2.2 Level AA asks for targets of at least 24 by 24 CSS pixels, with exceptions.
 - ☐ **Add captions, transcripts or audio description to your videos.** These are among the W3C Easy Checks for audio and video.
 - ☐ **Ask your web developer to test against WCAG 2.2 Level AA.** Ask for the failures in writing so you can prioritise fixes.
 - ☐ **Put WCAG 2.2 Level AA in the brief for any new site or redesign.** Make it part of what you're paying for, not an extra later.
